Lincoln Lane – Private sewer connection discussion

Michael said that there was a request made to the Highway Department that had a failing sewer connection and believed he could repair it. After contacting Tony Campetti, Sewer Superintendent, he identified the connection as being private. Mike said that there was no direct cause of damage by the Town and therefore the Town cannot authorize the use of Town funds on private property. Mary Green stated her dispute that the Town could be liable. Chuck stated that as it is a private manhole, he would recommend that the owners replace it with a Town specified manhole, the Town could take it over after a year. Otherwise, it is up to the owners to fix it. Mike said that it is up to the Board to decide if the Town is primarily responsible for the damages to the system and do the upgrade or not. Jamie said that there is no data or facts. Chuck said that while he would like to help, he could not justify the use of tax payers' monies. Patrick felt that the Town should do it. Chuck made a motion that the Town does not fix the manhole. Jamie seconded. Aye Jamie, Aye Chuck, Nay Patrick

#### Curtisville Bridge – additional estimate for engineering review of option for restoration of the bridge

Mike said that **(#3)** Structure North Consultant Engineering did a visual inspection and felt there were options, keeping it a stone arch bridge but most likely as a pedestrian bridge. Physical assessment will still need to be done. The other two options are to **(#1)** take down the stone bridge and create a pedestrian walk bridge or **(#2)** taking down the existing bridge and reusing the stones on the facade and having it be a road bridge. He asked the Board to consider these three options and not wait longer. Mike said that they have the funds. Patrick made a motion for the third at \$14,500. Chuck seconded; all were in favor.

#### Announce Cemetery Commission openings

The new bylaws have been established by the state so the new set up is a five-member board; one from select board, one from Laurel Hill and three from the public. If anyone is interested contact Town Hall. Appointments will be made at the September 14<sup>th</sup> meeting.

#### ARPA Discussions

o Installation of a Pine Woods walkway, discussion of letter from MassDOT. Mike said that they have been following up with Mass Highway and after some follow-up, Mass Highway sent a letter stating that they are interested to construct a sidewalk from Pine woods to North Church Street and were agreeable to work with the Town; contingent with the Town agreeing to complete a 450-foot section from the North Church Street side to Grange Hall which is Town property. Mike suggested to commit to the project and put ARPA funds towards sidewalks and various roads. Chuck made a motion that they use the balance of the ARPA for the sidewalk and various roadwork. Patrick seconded; (Jamie recused herself) all were in favor.

o Park Street Bridge – Mary Flynn Trail - repair and long-term responsibility

Legally the Memorial Bridge is owned by Laurel Hill. The Town owns one side and Laurel Hill Owns the other side. Laurel Hill would like the Town to take over ownership and responsibility of care for the bridge. A thought was if repairs are made then go to Town Meeting to see if the Town would take as a gift the parking area side, then making the bridge the responsibility of the Town. The suggesting is to fix the bridge using ARPA funds and then go to Town Meeting. Chuck made a motion to appropriate \$100,000 from ARPA to do the work to the Memorial Bridge. Jamie seconded; all were in favor.

#### Charging Station Rates discussion

Mike said that they are up and running and a rate needs to be added. Mike felt it should be temporarily set to 30% above our current kWh (about 12.3 cents) setting it at about 15.5 cents/kWh.
