

## *Sewer and Water Minutes*

*January 8, 2019*

Present: Don Schneyer, Mike Buffoni, Tom Schuler, Tony Campetti, and Jennifer Carmichael; absent: Peter Socha. Tom motioned to accept the minutes from December 4<sup>th</sup> and all were in favor.

Budgets - special articles; FY 2020 Mike to refurbish water treatment plant high lift pumps #1 & #3 cost is \$50,000 could be taken from water surplus. Tony has an article in to buy a new truck and will make sure the plow can fit. FY2018 current surplus is \$451,000 for water and the surplus for sewer is \$212,000. The readings for the whole town will now be read in January and July. The budget for water is almost level funded, a line item was added for the water main cross-country mowing which added \$4,000. A few new water meters were purchased and any meter 10 years or older will be replaced. The sewer budget was level funded.

There are 40 acres that have been marked for logging but the weather has backed up everyone's work. They are only allowing short trucks to go up and get wood; the newly paved road up by the tanks at this time does not want long trucks on it.

The spill way and the dam by the spring house were filled by beavers this summer but there has not been much activity this winter.

Tom motioned to adjourn the meeting and all were in favor.

Next meeting: February 5, 2019

Respectfully submitted by,

Jennifer Carmichael
